THE NAME BEHIND THE BRAND

PFG Australia is a wholly owned subsidiary of Power Farming Wholesale Ltd. This privately-owned company headquartered in New Zealand has a three generation history of service to Australian and New Zealand tractor markets.

PFG Australia sources leading tractor and agricultural machinery brands from around the world, distributing them through extensive dealer networks and servicing the market from several strategically located distribution hubs. Products are trialled at PFG Australia's 4.5ha purpose-built headquarters in Derrimut, Victoria, with onsite fieldwork demos, warehouse and display, conference facilities and service training centre.

DERRIMUT, VIC

Without exception, the brands chosen are best-in-class products incorporating the latest in technology and design.

For almost 20 years, PFG Australia has selected the best Kioti products to suit the needs of farmers here, with support from a network of 85 dealers nationwide.

SOUTH KOREA'S GLOBAL GIANT

COVERING OVER 60 COUNTRIES WORLDWIDE!

Decades of excellence.

Underpinning the success of Kioti tractors are two major factors:

- *a philosophy of unswerving attention to the needs of the farmer;*
- *a keen eye for the very best in practical engineering and design.*

South Korea is admired throughout the world for its premium quality products. Global industries rely on its manufacturing excellence.

Many South Korean companies and products, like Kioti, have become household names around the world: **Samsung Electronics, Hyundai Motors, LG Electronics, Hankook Tyres** and **Kia Motors**, to name a few.

Kioti's parent company, Daedong Industrial Co Ltd has led the way in developing world class farming machinery for many decades.

The company's many achievements have been recognised by Export and Design awards and Gold Level Status from the North American Equipment Dealers Association.

From its South Korean headquarters through all its subsidiaries and affiliates, Kioti/Daedong continues to maintain a culture of eco-friendly

product development, responsiveness to market needs and rigorous quality assurance. Today Kioti/Daedong products have a secure global market across 60 countries.

PFG Australia has brought its own commitment to excellence to the Kioti success story with a strong national dealer network, dedicated parts, service and distribution centres, and unparalleled aftersales service. It's a partnering that has made this South Korean giant a household name throughout Australasia.

Australian Farmers

Phillip

**MEET CS2610 OWNER
PHILLIP WATKINS
FROM MANSFIELD, VIC**

*"Now the **Kioti** is taking care of all the tough work..."*

A year ago, Phillip and Heather Watkins bought five acres to build a house close to their family in Mansfield, Victoria. To help with grounds maintenance, they bought a Kioti CS2610 subcompact tractor with a mower deck and 4-in-1 loader from their local Mansfield dealer.

Phillip said he'd looked at two other brands but one was expensive and six months on, he's still waiting for a quote for the other one.

"The Kioti CS2610 was quite economically priced and it's good to drive. It handles the undulating terrain very well and the two pedal transmission is excellent," he said.

"We've cut the grass with it a few times. It's a lot easier than trying to look after five acres with a domestic hand-mower! The power steering is very responsive and the mower deck height attachment and forward/reverse controls are very easy to use."

"I've been moving dirt around, laying pipework and backfilling the trench at our daughter's place too. I'm impressed with the tractor. And it's very economical with

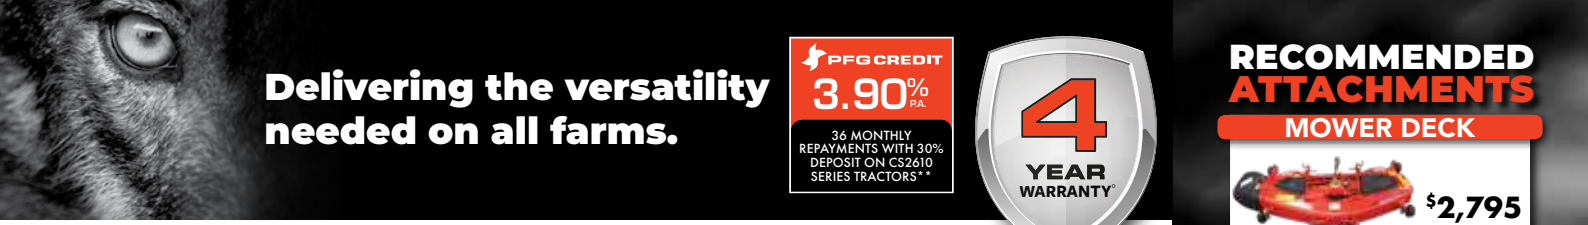

fuel. It seems to run on the smell of an oily rag."

"The CS2610 is solidly built and I think it's going to give us a long service life. The mower deck on some brands can be a bit light in the metal work but this one is good and strong."

"We're looking forward to doing much more with this tractor. We'll probably get a post hole digger for it too. And after the house has been built, I'll use the Kioti to prepare Heather's flower gardens."

"Now the Kioti is taking care of all the tough work, there might be more time for me to enjoy the peace and quiet and watch the grass grow."

Delivering the versatility
needed on all farms.

Greg

**MEET CK3010 OWNER
GREG HEMS FROM
LADYS PASS, VIC**

**"It feels very safe and stable
on the uneven ground here."**

Greg Hems lives with his partner Diana on 15 acres at Ladys Pass near Heathcote, Victoria, and needed a strong, versatile tractor to work the undulating, very rocky ground.

In July 2018 they bought a Kioti CK3010 compact tractor. Greg said before buying he researched two other quality brands and visited the showrooms.

"We bought our CK3010 from a local Kioti dealer in Bendigo. They were much more enthusiastic about the sale and after sales service than other brand dealers we spoke to, and they are local. We got a 4-in-1 loader, post hole digger, slasher, rear forklift and backhoe with the tractor."

"Our first jobs with it were to slash the grass for fire reduction and dig a lot of post holes. It has worked very hard putting in fence lines. We're doing all new fencing to get ready for future stock, maybe goats or alpacas.

"I haven't used the backhoe much yet," he said. "I'll use it when we're laying irrigation pipes to allow standing water to run down to the dam."

"The CK3010 is a very good tractor and the power to the hydraulics and 4-in-1 bucket has allowed us to do some big clearing jobs. It has a strong build and we haven't been able to break it yet. It feels very safe and stable on the uneven ground here."

"I thought it would be louder but it's quiet to operate. And it gives good hours for the fuel it uses."

The hydrostatic transmission is excellent and makes for much easier operation. We're both impressed with what it can do and how easy it is to drive. The only problem I have with it is getting to it before Diana does. She really likes using it."

SOUTH KOREA'S FINEST TRACTORS DESIGNED FOR *Australian Farmers*

KIOTI

CK3710 & CK4210

37-42^{HP}

Scott

**MEET CK3710 OWNER
SCOTT OATES FROM
DERWENT PARK, TAS**

Scott and Cathy Oates wanted a tractor to help maintain their 10-acre lifestyle farm 30 minutes south of Hobart, Tasmania. Scott went to Agfest in Launceston to see what was available and took delivery of their Kioti CK3710 HST tractor from a Kioti dealer in Hobart 18 months ago.

"At Agfest it's easy to compare the different brands," he said.

"The Kioti people were much more engaged and accommodating and knew a lot about their products."

"I felt they were really interested in what Cathy and I wanted from a tractor and which one would best suit our needs."

"We chose the CK3710 HST because it's a good solid tractor, well put together and simple to use. With the 4-in-1 loader, slasher and fencing auger, it was good value for money," Scott said.

Their 10-acre property is at the top of a hill with fairly steep slopes to the front and back. The Oates family have a couple of horses and grow fodder for them. Scott said he and Cathy both use the tractor,

which has saved them a lot of work and time.

"I've used it for slashing, harrowing, spreading lime and fertiliser, taking out old fencing with the 4-in-1 bucket, and putting in new copper posts. The water-hole had a two-metre high bank behind it. I dug out the bank and leveled it so it's safe and easy to drive right around it now."

"The CK has low noise and is very smooth to drive. The transmission is perfect, the HST pedals are great, and cruise control makes things very easy when I'm slashing and harrowing the paddocks."

"The practical functionality of this tractor is fantastic and you don't have to be a computer wizard to use it," he said.

Highest spec'd compact tractor on the market.

Bob

**MEET DK5810 OWNER
BOB FRANZE FROM
ELPHINSTONE, VIC**

"It's a very versatile tractor."

At his local Kioti dealership, the first thing that really impressed Bob Franze was the stability and safety features of the Kioti DK5810 tractor. The second thing he noticed was a very reassuring engine noise: serious but not loud.

"I bought my first Kioti tractor nine years ago and put it through some tough work and never ever had a problem with it," Bob said.

"When I wanted a new tractor, I did some research on other brands to see what was out there but I'm a very safety conscious person and I like the Kioti build and design. The reliability of my previous Kioti was another reassuring factor."

Bob does some fencing contracting from his Elphinstone base in Victoria. He also uses his tractor for grounds maintenance on the home acreage and neighbouring properties. He bought his new Kioti DK5810 with 4-in-1 loader and backhoe in October 2018.

"I've been using the tractor for site leveling and doing footings for a building site. I've done a lot of slashing with it. I use it for harrowing and spraying pasture with the

boom spray. It's a very versatile tractor," he said.

"It's very comfortable with excellent ease of access to the seat. I haven't thought much about the fuel efficiency and haven't noticed a difference. It seems the same as a much smaller machine."

"The bucket is fantastic for removing old fence posts and star posts. A lot of buckets aren't very accurate but this one is really precise in operation and I can do extremely fine work with it."

"The backhoe is also very precise and uses the power of the engine very well. It has a lot of grease points to keep it all well lubricated. It's reassuring to find a tractor that's been designed with easy maintenance in mind."

Randy

**MEET NX6020 OWNER
RANDY WALSH
FROM TORQUAY, VIC**

"The Kioti makes it so easy and comfortable, like a home away from home."

When Randy Walsh bought his Kioti NX6020, he didn't waste time on research.

"I'd used a 50hp Kioti for five years and always enjoyed it. It did what I needed it to and was all set up just the way I like it, and the hydrostatic transmission was really fantastic" he said. Randy owns Tiger Moth World, adventure flight specialists in Torquay, Victoria.

"We have 150 acres running right down to the foreshore and we need to keep them in top condition for safe landing and take-off. I'm a bit older now and with the new tractor I wanted the comfort of a well-designed cabin with air conditioning. I knew Kioti would have exactly what I need."

He bought the heavy duty Kioti NX6020 with 4-in-1 loader from a local dealer and uses it for slashing, moving dirt, leveling the runways and ground repair. He also plans to use the new tractor with a mulcher to deal with tree waste.

Randy said the NX6020 has obviously been designed for comfort and convenience. "It's very easy to use. Everything's where you need it to be, the fittings are very good

and access is easy. I like the doors on Kioti tractors too. They've got a good solid build and seal very well. You can see they'll take a bit of weight without deteriorating."

"In the cabin, hot or freezing temperatures and those strong Torquay winds aren't a problem for me. I work 1.2 kilometre straight lines with the Nugget slasher and with cruise control the tractor just rolls on.

"The Kioti makes it so easy and comfortable, like a home away from home. I can sit in it all day if I want to, listen to the radio and have lunch with the kangaroos. And if I'm working at night, the lighting is great. Kioti's NX6020 is a fantastic tractor."

Andrew

**MEET RX7030 OWNER
ANDREW BELFRAGE
FROM DRYSDALE, VIC**

"Kioti tractors are more user friendly."

Andrew Belfrage is an agricultural contractor operating in the Geelong and Bellarine regions of Victoria. In October 2018, Andrew bought his first Kioti, the RX7030 cabin tractor with 4-in-1 loader, from a local dealer. He said he looked at several other brands before deciding on Kioti.

"I looked at tractors in the same range from different companies. Some were cheaper and some were more expensive. But I also like to know where they're manufactured and where the parts are coming from.

"Kioti tractors are still made by Daedong in South Korea. They've been making tractors for a long time and they're still here and going strong, so they must be doing something right."

He said having a local dealership with a good service department was a factor too. Andrew uses his Kioti RX7030 to provide a range of contracting services for small farms and rural properties in the area.

He offers hay contracting, pasture maintenance, spraying, ploughing, fertilising, sowing, grass slashing, general clearing and mulching.

"I think the RX7030 is a well built, versatile tractor with plenty of power for a diverse range of operations and pretty good fuel economy," he said.

"Kioti tractors are more user friendly. The cabin is very comfortable in these newer models. It has all the specs and features I've been looking for and is very easy to operate."

"Visibility is very good and the tractor is easy to manoeuvre with a good turning circle. I like having the power shuttle lever and no clutch because it makes driving so easy, and the one-push switch for hydraulic four-wheel-drive on the move is very useful."

"I'm pleased with the way the RX has handled all the work I've done with it and I'd recommend it for anyone needing a good strong all-round utility tractor for this type of work."

SOUTH KOREA'S FINEST TRACTORS DESIGNED FOR *Australian Farmers*

KIOTI

Steve

**MEET PX1052 OWNER
STEVE PURVIS
FROM KOYUGA, VIC**

"Everything works easily and it's been a very reliable tractor for us."

For dairy farmers Steve and Deb Purvis, owning one Kioti tractor was great but having two is even better.

In Koyuga near Echuca, Victoria, Steve and Deb have a 180-cow dairy farm on 300 acres. Their cropping work is contracted out and they grow all their own fodder under full irrigation.

Two years ago they bought a second-hand 80hp Kioti tractor and Steve said he really liked using it.

"I like the shuttle shift, the air-conditioning, the easy access to the cabin. Everything works easily and it's been a very reliable tractor for us. It hasn't ever let us down and we're still using it," he said.

"But when it came to stacking the big square bales, we felt we wanted a tractor with a bit more weight to it so we decided to get a second machine. We didn't bother researching any other brands. We just went straight for the Kioti PX1052 cabin tractor with 4-in-1 bucket and a set of forks."

"We bought it 12 months ago from our local dealer and it's mainly used for front end loader work, getting hay onto trucks

and trailers. I've been doing a lot of topping with it too. And we also use it to feed out. It's really good and much faster on the cradle that feeds out the hay."

"The air-conditioned cabin is quiet and comfortable with plenty of room and everything where you need it to be. Visibility is great. The tractor is smooth to operate and so easy and efficient to use."

"Everything about the PX1052 works well and it has given us no trouble at all. Like our older Kioti, it is proving to be very reliable. Price-wise it was good value at a sensible, not silly, price. We're very happy with it."

Perfect for every job, in
comfort, on the farm.

SOUTH KOREA'S FINEST TRACTORS DESIGNED FOR *Australian Farmers*

KIOTI

Dave

**MEET MECHRON OWNER
DAVE LIDDLE FROM
ALEXANDRA, VIC**

"The Mechron's hydraulic tipper cargo tray has made a big difference to our work."

Dave and Mary Liddle bought their Kioti Mechron UTV 18 months ago from a local dealer in Lilydale, Victoria.

The Liddle's run 100 beef cattle on 150 acres at Alexandra with a lot of help from long-time colleagues Laurie Purcell and his wife, Shirley.

The property has the Goulburn River along one side and the Maroondah Highway on the other.

For getting around on-farm and doing various jobs, they'd been using a 1979 F100.

"We like to investigate carefully and buy things that last," Dave said. "Before we chose the Mechron, we talked to dealers and neighbours, and we looked at all the top brands at showrooms and agricultural shows. It took quite some time before we made up our minds but we're very happy with our decision."

"The Mechron is very versatile, hardy and dependable. It makes the work easier and safer and gives us the ability to do more."

"I use it when I'm moving cattle around, spraying thistles and blackberries, watering young trees in the shelter belt

and moving loads from one place to another. The Mechron's hydraulic tipper cargo tray has made a big difference to our work. It's so much more practical.

"I've just got it licensed for the road because before we can slash the grass on the highway boundary we have to clear up the cans, bottles and debris."

"It seats three comfortably but there's usually only two of us in it. Mary enjoys driving it, and when our 18-year-old grandson Ashley takes it out we don't need to worry because it's got all the safety features."

"There's no doubt it's made life here much more pleasurable. And when the work's done, we throw a couple of deckchairs in the back and head for the river to relax."

The ultimate utility vehicle.

CONTACT YOUR LOCAL DEALER FOR MORE INFORMATION

SOUTH KOREA'S FINEST TRACTORS DESIGNED FOR *Australian Farmers*

All Kioti Tractors ranging from 26 HP up to 105 HP come with a standard two year or 1,500 hour warranty covering all components on the tractor.

To compliment this great coverage Kioti Tractors have an additional Driveline coverage to a maximum of four years or 2,000 hours for all models, which is standard with every tractor purchased.

This coverage is a manufacturers coverage and not offered by a third party insurer and has no extra costs or excess required to be paid.

A basic overview of the coverage includes engine, transmission, differentials, axles and all parts contained therein.

So for four years or 2,000 hour warranty your Kioti tractor will have coverage on all major components and everything in between.

FINANCE FOR YOUR KIOTI TRACTOR

In today's marketplace, businesses consider competitive tailored financing options just as important as the equipment features and benefits when they acquire machinery.

PFG Credit offers comprehensive financing programs based on innovative financial products to meet the individual needs of our customers.

PFG Credit is provided by De Lage Landen Limited part of the global Rabobank Group - the world's largest agricultural lender. Their knowledge of the Australian rural industry and machinery markets means that customers can get the deal they need.

The various PFG Credit products available to clients are designed to allow businesses to conserve working capital, budget on a fixed rate, fixed term and fixed repayments to suit their cash flow.
